

# Hurt the Dirt Without Harming the Planet

From oven and grill cleaners to disinfectants and spot removers, there are 14 categories of biobased cleaning products in the BioPreferred® Program Catalog to choose from!

## Top Cleaning Categories

- Top cleaning categories with the most growth in the last 12 months:
1. Microbial Cleaning Products/General Cleaners — Microbial cultures within a product create biosurfactants or rhamnolipids once applied. These biologically produced surface-active agents act as a nontoxic replacement for conventional chemicals. There are 146 Microbial Cleaning products listed in our Catalog.
  2. Disinfectants – We list 34 biobased disinfectants.
  3. Oven and Grill Cleaners – 7 oven cleaner products in the Catalog are made from raw materials like soy and orange oil.

## Gear Up to Make it Shine

- Biobased sponges, cloths, and scouring pads that are free from petroleum-based products get the job done. Some examples:
- Corazzi® Bio Cell Ecofriendly Scrubber – Scouring sponges made of natural and recycled raw materials that are eco and environmentally friendly.
  - Scotch-Brite® Greener Clean Natural Fiber Non-Scratch Scour Pad — Non-scratch scrubbing fibers are made from 50% natural agave plant; packaging is made from 100% recycled content.
  - Darzee G1 Soap-In-Scrub — Made of sustainably and responsibly harvested aspen excelsior grown and produced in Colorado. The natural wood fiber, encased in light cotton fabric, minimizes bacteria growth and odor without the use of toxic and harsh chemicals.

## Want to Protect Your Skin and The Planet as You Clean?

Use biobased gloves, like Sugarlab Eco Gloves made with biomass synthetic resin from sugarcane.

## Wipe Away Grease, Grime, and Smudges

- Here's just a sample of the biobased products available:
- Eco Mist Solutions All Purpose Cleaner is made from corn, sugarcane, tree sap, grass and non-chlorinated water.
  - Blueland Glass + Mirror Cleaner eliminates the need for single-use plastic packaging.
  - GO by greenshield™ Tub & Tile Cleaner is a plant-derived formula to clean soap scum, deposits and tough bathroom grime.

## What are your cleaning products made of?

Find these and many other biobased options in the BioPreferred Program Catalog.
